3							

Phase items	Items Requirement	State (Done – not yet)	Date
--------------------	--------------------------	-------------------------------	-------------

Chapter two			
Introduction due project scope			
Related works			
Previous studies			
Chapter three			
Introduction to analysis			
Problem statement in details			
Data collection tools with example			
Feasibility study (Technical - Economic)			
Input analysis			
Output analysis			
Reports analysis			
Processing analysis			
Security analysis			
Maintenance analysis			
Introduction to UML			
Use case diagram			
Class diagram			
Sequence diagram			
Activity diagram			
Data dictionary			
Entity relation diagram			
Relation model (1NF - 2NF - 3NF)			
Schema diagram			
Design of screen			
prototype			

When designing system screens, the following must be taken into account:

1. Logical order of input at the respective screen

- 2. Use the golden rule for entry using checklist
- 3. Commitment to language and script.
- 4. Adhere to the appropriate colors for the screen.
- 5. Distribute the screen appropriately.
- 6. Field names font size 14, bold, Simplified Arabic, or Traditional Arabic.
- 7. Buttons are font size 16, Bold, Simplified Arabic or Traditional Arabic.
- 8. The other elements are font size 16 and Simplified Arabic
- 9. The color of the font is black and white.
- 10. The data modification icon bears the form 
- 11. Delete data icon bearing the form
